DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 3-10-03 has been entered.

Specification

2. The amendment filed 3-10-03 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: "Desirably, the sprayable product has a Brookfield viscosity ranging from about 30 to about 300 cps, more desirably from about 30 to about 100 cps, and even more desirably from about 50 to about 70 cps".

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the

Art Unit: 1751

art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claim 12 is rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The aforementioned claim states that said viscosity has an upper limit of 300 Cps. This limit is considered new matter because it appears that applicant did not have possession of said upper limit in the originally filed application.

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

1. Claims 1-4, 6-10, 12-44 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ahmed (5,981,457).
2. Ahmed discloses a liquid gel warewash detergent composition comprising 5 to about 30% by weight of an alkali metal detergent builder salt such as sodium tripolyphosphate; 8 to about 50% by weight of a source of alkalinity; 0.1 to 2% by weight of a polymeric thickener; 0.1 to 2% by weight of a fatty acid bonding agent; and the balance water (col. 2, lines 34-63). Ahmed further teaches that said detergent component might comprise anionic surfactants in an amount from 0 to 5% by weight (col. 3, lines 51-65). Note, see table 5.

Ahmed is silent with respect to the pH of the composition. However, Ahmed teaches all of the instantly required components in their requisite proportions, wherein one

Art Unit: 1751

of ordinary skill in the art would expect the composition to comprise a pH of 10 to 14 because of the amount of alkalinity and because the composition are for caustic applications.

Response to Arguments

Applicant argues that said compositions of Ahmed are not sprayable.

The examiner respectfully disagrees and contends that applicant has not provided any evidence to support this allegation. The compositions of Ahmed require the same components for the same use and one of ordinary skill in the art would have been motivated to use said composition for spraying in the absence of a showing to the contrary. The arguments of counsel cannot take the place of evidence in the record. In *re Schulze*, 346 F.2d 600, 602, 145 USPQ 716, 718 (CCPA 1965); In *re Geisler*, 116 F.3d 1465, 43 USPQ2d 1362 (Fed. Cir. 1997) ("An assertion of what seems to follow from common experience is just attorney argument and not the kind of factual evidence that is required to rebut a prima facie case of obviousness."). See MPEP § 716.01(c) for examples of attorney statements which are not evidence and which must be supported by an appropriate affidavit or declaration.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Necholas Ogden whose telephone number is 703-308-3732. The examiner can normally be reached on Monday-Thursday.
